

No. RWA-41/2008-09/Circular-22

Dated: 25.04.2009

Dear Residents,

COMMUNITY GET TOGETHER

The Period under review had been full of activities. The team's hands were full. Notwithstanding the very essential preoccupations the most sought after recreational activities continued. The programmes and activities of the RWA are finding increasing acceptance and appreciation from its members and others alike which is reflected in the steady increase of the visitors/callers to the RWA office seeking information and help on various issues. Recognizing the Services being rendered by the RWA we have been invited to participate in the lectures/Seminars etc. arranged by the various authorities. In the recent past we attended a lecture by Dr. Bimal Chhajer a world renowned Cardiologist held at Community Centre sector – 39 from where we gained valuable information about the well being and health care. We are receiving requests from the leading hospitals like Apollo to organize health awareness camps/offer discounts etc. for the benefit of our residents especially Senior Citizen.

A Holi Milan Get together was celebrated on 11th March at Community Centre with great fun and frolics. All the residents with their families participated and recited melodious Holi Geets and Bhajans befitting the occasion and exchanged Holi greetings by applying Gulal/Chandan and showering of Rose Petals.

As usual the RWA functions are celebrated in totally homely atmosphere. The celebrations were followed by a sumptuous lunch arranged by RWA. All the participants were appreciative of the efforts of RWA for organizing such Community get-together functions, which give them a feeling of brotherhood and communal harmony.

NOIDA AUTHORITY

We are happy to inform that the following pending jobs have been done by Noida Authority.

- Efforts are being made and hopefully we may get positive response.

A letter has been sent to Noida Authority for cleaning of the drains before the rains set in.

MONKEY MENACE

Complaints were being received from our residents regarding the monkey problem. We wish to inform that RWA has already engaged a Langoor wala to get rid of this problem. Please contact Mr. N.K. Banerjee in RWA Office for any complaint to this effect.

SENIOR CITIZEN FORUM

Residents are aware that Senior Citizen Forum was set up on persistent demands of our elders and a place was provided at Community Centre. We are happy to inform that the Forum has now been registered vide registration No. 1768. We may now concentrate on expanding the activities so that Senior Citizen could spend their time in a constructive and qualitative way. This is the greatest achievement for the sector and RWA extends its heartiest Congratulations on this occasion.

BIOCHEMISTRY OF BODY IS A PRODUCT OF AWARENESS

Awareness makes a huge difference in aging. To despair of growing old makes you grow old faster, while to accept it with grace, keeps many miseries, both physical and mental, from your door. The Commonsense notion "You are only as old as you think you are" has deep implications.

CONTENTMENT

Contentment is key to happiness and resentment engenders stress and anxiety, which are bad for health. Sharing your happiness with others will give you immense joy. It is sure to give a new base of life in you. Be optimistic and look at the half glass, which is full. Never feel envious of those who are better off than you but give a thought about those who can't even manage two squares of meals every day.

THE MAINTENANCE AND WELFARE OF PARENTS AND SENIOR CITIZENS ACT, 2007

Safeguarding the rights of the elderly is an issue of paramount concern today for the society. The main aim of the Act is to create a mechanism enabling Senior Citizens and Parents to make claim for maintenance before a Special Tribunal through inexpensive & expeditious process within a time bound period of 90 days.

KEY FEATURES

- Parents or Senior Citizens who are unable to maintain themselves through their own earnings or out of their own property may apply for maintenance from their adult children or relatives. The maintenance includes the provision of proper food, shelter, clothing and medical treatment.
- Parents includes biological and adoptive parents and stepmothers and fathers, whether senior citizens or not.
- Every Senior Citizen who has attained age of 60 yrs. And above, can also claim maintenance from relatives who are in possession of or are likely to inherit his or her property.
- The application for maintenance may be made by Senior Citizens and Parents themselves or they may authorize any person or Voluntary Organization to do so. The Tribunal may also take action on its own motion.
- If the Tribunal is satisfied that children or relatives have neglected or refused to take care of their Parents or Senior Citizens, it shall order them to provide a monthly maintenance amount up to Rs. 10,000 per month.
- Neglect & abandonment of Senior Citizen is a cognizable offence, punishable with fine of Rs.5,000/- or 3 months imprisonment or with both.
- State Governments will set up atleast one Old Age Home for every 150 beneficiaries in a district. These homes are to provide Senior Citizens with Minimum facilities such as food, clothing and recreational activities.
- All Government hospitals or those funded by the Govt. will provide beds for Senior Citizens. Special queues to access medical facilities should be arranged for Senior Citizens.

WE SHOULD VOTE TO MAKE OUR LEADERS ACCOUNTABLE

It is our constitutional and civic duty to go out and vote for a leader of your choice. We have to get involved in the Parliamentary process if we want accountability from our leaders and the Government. More and more people should come out and vote. The fervour is strong. The rich and the middle class have realized that they cannot stay away from the election process.

The trauma that the victims of the Mumbai terror attacks went through can affect any of us now. The need of the hour is to make the Government responsible for its citizens. We need strong leaders who can make quick and rational decisions.

Every vote counts and is needed to bring about a radical change in society. Moreover people need to take responsibility of the kind of leaders they choose instead of just blaming the government.

GRIEVED

Photo

RWA deeply regrets to record the Sad demise of Mr. R.N. Prasad (F-104). Two times Representative of Block – F. He passed away on 2nd April at the age of 62 (1-6-1946 to 2.4.2009). His services for the sector will always be remembered as he developed a barren land in front of his house no. 104 into a beautiful park with trees of almost every variety.

May the Almighty give sufficient fortitude to the bereaved family Members to withstand the irreparable loss. May the departed soul rest in peace.

(K.L. BANSAL)
PRESIDENT

(S.K. SUDAN)
GENERAL SECRETARY

COMPLAINTS WILL BE ENTERTAINED FROM 9.00 A.M. TO 1 P.M. EXCEPT SUNDAY.

OFFICE TIMINGS 10.30A.M. TO 1.00P.M. EXCEPT SUNDAY.

KNOW THE TRUTH

(I.D. Sharma – Executive Member)

The 'SAMVADA' News Bureau of sector – 41 has regularly been publishing incorrect reports about the activities of the present **RWA Team**. In January month issue The Bureau published a news under the heading "**RWA Term should not have been Extended For 2 years – Feel The Residents**" ignoring the good works done in the sector by the present team of RWA.

In March edition of SAMVADA editor published, a news item on the front page under the title "**Sectors Parks are looking Beautiful. Let's Recognize the Great Contribution of the Residents**". It is heartening that the editor showed concern towards environment and appreciated the efforts made by Mrs. Gupta & Mrs. Malhotra in 'E' Block Park, by Mrs. Vedi in development of a park in 'J' Block (adjacent Community Centre) but about 'H' Block Park the contribution of Dr. Saroj Singh was also appreciated, ignoring the fact, that 'H' Block park is being looked after by Executive Member Sh. M.C. Gupta and Sh. S.M. Sharma for the last one year. Contribution of Horticulture Dept. of NOIDA was also remembered but deliberately ignored the efforts put by RWA and the money that RWA has regularly been spending every month on the salary of Malis for the last three years. Should it be called a slip or deliberate mischief?

In April issue, all the limits have been crossed when the news under the title "**Manipulating RWA Fund Has Tarnished the Image of RWA** 'published' on the behest of some member of Rival Group of the sector. This fact became evident when Col. Tikkoo who lost last election which he had contested as General Secretary has joined SAMVADA recently. The Managing Committee of RWA in its emergency meeting held on 15.04.09 has strongly condemned the Editorial Board of SAMVADA due to its biased incorrect, distorted and untruthful publication of news items.

Warning bell has rung now and the residents should not believe what SAMVADA publishes in its news items. They should have full faith and trust on the present **Elected Team of RWA**, which is rendering dedicated, selfless services to the residents of the sector and informing them about all activities through circulars and News Letters, circulated from time to time.
